39. I am very _____ of my father and love him so much. (PRIDE)

40. Environmental _____ is everybody's responsibility (PROTECT)

VII. Read the following passage and choose the correct answer to each question.

Florida's "Everglades", the largest national park in the eastern USA, are in serious danger. One of the most significant areas of "wetland" in the world, and classified by UNESCO as a "World Heritage Site", the park has suffered dramatically over the last sixty years on account of encroaching agriculture and the vast expansion of Florida's population. If the decline is not stopped, the entire ecosystem of southern Florida could be irreparably damaged – and the sunshine state, one of the fastest-growing states in the USA, could become an inhospitable wasteland.

Back in the year 2000, in order to prevent just such a catastrophe, and ensure the survival of America's most distinctive National Park, Congress approved a 30-year 8.2 billion dollar Everglades rescue plan, the largest concerted environmental project the world had ever known. Estimated at 10,700 square miles (27,000 km²), the original Everglades area was home to a fantastically rich and diverse range of wildlife; but in recent decades, this wildlife has already been decimated. It is estimated that the water-bird population of the Everglades has fallen by 93% in the last forty years.

Unless more progress is made, the outlook for the future is not good, and large parts of the Everglades' vital and remarkable ecosystems may be damaged beyond repair.

41. Florida's "Everglades", the largest national park in the eastern USA, are in _____

- A. the best condition. B. serious danger.
C. floods and storms. D. the risk of disappearance.

42. Which of the following is NOT the reason that makes the park suffer dramatically over the last sixty years?

- A. the encroachment of agriculture.

B. the vast expansion of population.

C. industrial pollution.

D. the increase in population.

43. What happen to the wildlife in the original Everglades area in recent decades?

A. This wildlife has already been destroyed.

B. This wildlife has already been preserved.

C. This wildlife has already been conserved.

D. This wildlife has already been saved and cared.

44. How many percentages of the water–bird population of the Everglades has fallen in the last forty years?

A. exactly 7% B. exactly 93%

C. nearly 93% D. less than 7%

45. What is the message to the readers?

A. We should take action to protect the service in the national park-Florida’s “Everglades”.

B. We should take action to protect agriculture in Florida.

C. We should take action to protect animals in Florida.

D. We take action to protect the Everglades’ vital and remarkable ecosystems.
