► **Đáp án:**

1 - A 2 - D 3 - A 4 - B 5 - D

6 - C 7 - B 8 - A 9 - C 10 - A

Bài tập trắc nghiệm Tiếng Anh 12 Unit 7: Reading

Read the passage below and decide whether the statements are TRUE or FALSE?

Autonomous weapons are artificial intelligence systems that are programmed to kill. In the hands of the wrong person, these weapons could easily cause mass casualties. Moreover, an AI arms race could inadvertently lead to an AI war that also results in mass casualties. To avoid being thwarted by the enemy, these weapons would be designed to be extremely difficult to simply “turn off,” so humans could plausibly lose control of such a situation. This risk is one that’s present even with narrow AI, but grows as levels of AI intelligence and autonomy increase.

Question 1: Autonomous weapons are natural intelligence systems that are programmed to kill

- A. True
- B. False

Question 2: An AI arms race could inadvertently lead to an AI war

- A. True
- B. False

Question 3: These weapons would be designed to be extremely complicated

A. True

B. False

Question 4: An AI arm also causes in minor casualties.

A. True

B. False

Question 5: This risk is one that's present even with narrow AI, but grows as levels of AI intelligence.

A. True

B. False

Choose the letter A, B, C or D to complete the passage below

It may be that media have made the AI safety debate seem more (6) _____ than it really is. After all, fear sells, and articles using out-of-context quotes to (7) _____ imminent doom can generate more clicks than nuanced and balanced ones. (8) _____, two people who only know about each other's positions from media quotes are likely (9) _____ think they disagree more than they really do. For example, a techno-skeptic who only read about Bill Gates's position in a British tabloid may mistakenly think Gates believes super intelligence to be imminent. Similarly, someone in the beneficial-AI movement (10) _____ who knows nothing about Andrew Ng's position except his quote about overpopulation on Mars may mistakenly think he doesn't care about AI safety, whereas in fact, he does. The crux is simply that because Ng's timeline estimates are longer, he naturally tends to prioritize short-term AI challenges over long-term ones.

Question 6: A. conversational B. controversial C. conversantly D. controversy

Question 7: A. proclaim B. abolish C. repeal D. decrease

Question 8: A. However B. As a result C. Therefor D. Before

Question 9: A. at B. off C. to D. with
